EYCE CAFFE' EYE GEL
CHIRALLY CORRECT

DESCRIPTION:

Pale Blue gel

SKIN TYPES:

All skin types SKINERCISE™ program

BENEFITS:

Eyce Caffè Eye Gel is a perfect one size fits all eye gel. It's soothing refreshing, de-puffing moisturizing and nutritive. The base is extremely moisturizing using a combination of Glycerin, Jojoba, and Shea Butter. Glycerin is a humectant used for its water-binding capabilities that allows it to draw and absorb water from the air. It also helps the skin retain moisture. Jojoba reduces transepidermal water loss without completely blocking the transportation of water vapor and gasses, providing the skin with suppleness and softness. Together, the moisturizing with the anti-inflammatory and soothing properties makes it an excellent eye treatment.

FOCUS INGREDIENTS:

- *Jojoba Oil: highly lubricating and antioxidative oil
- *Shea Butter: moisturizing, protective, helps with puffiness
- *Aloe Vera: soothing and healing
- *Caffeine: de-puffing
- *L-alpha-bisabolol: healing and soothing
- *D-glucuronic Acid: moisturizing, a precursor to Hyaluronic Acid
- *Glycerin: humectant and emollient
- *Heavy Water (D20): extra moisturizing and productive form of H2O
- *Blue Chamomile: soothing
- *Allantoin: healing
- *L-menthol Lactate: Cooling and refreshing

SUGGESTED USE:

Apply the Eyce Caffè Eye Gel once or twice a day around the eye area. Stipple in direction of eye muscle (in on bottom, out on top). Can be used as an eye masque, keep cold for added benefits.
